

section 4223 of the Code relating to articles purchased tax free for use in further manufacture.

(b) *Taxable articles in general*—(1) *Application of tax.* If the manufacturer, producer, or importer of an article taxable under chapter 32 of the Code uses the article for any purpose other than that indicated in paragraph (b) (3) of this section, he shall be liable for tax with respect to the use of such article in the same manner as if the article were sold by him.

(2) *Taxable use in manufacturer of nontaxable articles*—(i) *In general.* In the case of an article to which paragraph (b)(1) of this section applies, tax attaches when the manufacturer, producer, or importer of the articles uses it as material in the manufacture or production of, or as a component part of, another article which is not taxable under chapter 32 of the Code, regardless of the disposition made of such other article. (See paragraph (c) of § 53.115 for computation of tax on such use.)

(ii) *Types of use in manufacture of nontaxable articles.* Taxable use may consist of the incorporation of a taxable article into a nontaxable article. Taxable use may also result from the combining of a taxable article (or the components thereof) with a nontaxable article (or the components of a nontaxable article) resulting in a combination end article which itself is not taxable. Although the taxable article may not be a completely separable unit, within the contemplation of the law a taxable article has been produced and incorporated in the combination end article.

(3) *Nontaxable use in manufacturer of taxable articles.* The tax on the use of an article to which paragraph (b)(1) of this section has application shall not apply if the article is used by the manufacturer, producer, or importer thereof as material in the manufacture or production of, or as a component part of, another article taxable under chapter 32 of the Code to be manufactured or produced by him. It is immaterial what disposition is made of such other article.

(c) *Use after lease.* If the manufacturer, producer, or importer of a taxable article leases such article and thereafter uses the article, he incurs li-

ability for tax on such use as provided in these regulations to the same extent as if the article were sold after being leased. See section 4217 of the Code and the regulations thereunder in this subpart for application and computation of tax in case of leased articles.

(d) *Time of application of tax.* In the case of a taxable use of an article by the manufacturer, producer, or importer thereof, the tax attaches at the time such use begins. If tax applies by reason of the sale of an article by the manufacturer, producer, or importer thereof on or in connection with his sale of another article, the tax attaches at the time of the sale of such other article.

(e) *Exemptions because of other statutory provisions.* Tax does not apply on the use of an article by the manufacturer, producer, or importer thereof if under the applicable provisions of the Code the sale of the article for a similar use would not be subject to tax. Also, tax need not be paid with respect to the use of an article by the manufacturer, producer, or importer thereof if such use would qualify, under the provisions of section 6416(b) of the Code, for credit or refund of the tax paid.

EDITORIAL NOTE: At 56 FR 31084, July 9, 1991, § 53.111 was amended by removing the word “manufacturer” and adding the word “manufacture” in the heading of paragraph (a)(2), and removing the word “manufacturer” and adding the word “manufacture” in the first sentence of paragraph (a)(3), effective July 9, 1991; however, these subparagraph designations are not included in § 53.111(a). The issuing agency will publish a correction in the FEDERAL REGISTER at a later date.

#### § 53.112 Business or personal use of articles.

(a) *Business use.* Section 4218 of the Code applies to the use by a person, in the operation of any business in which he is engaged, of a taxable article which has been manufactured, produced, or imported by him or his agent.

(b) *Personal use.* The tax on use of a taxable article does not attach in cases where an individual incidentally manufactures, produces, or imports a taxable article for his personal use or

causes a taxable article to be manufactured, produced, or imported for his personal use.

**§ 53.113 Events subsequent to taxable use of article.**

Liability for tax incurred on the use of an article is not extinguished or reduced because of any subsequent sale or lease of the article even if such sale or lease would have been exempt if the article had been so sold or leased prior to use. If a manufacturer, producer, or importer of an article incurs liability for tax on his use thereof, and thereafter sells or leases the article in a transaction which otherwise would be subject to tax, liability for tax is not incurred on such sale or lease.

[T.D. ATF-308, 56 FR 303, Jan. 3, 1991, as amended by T.D. ATF-312, 56 FR 31084, July 9, 1991]

**§ 53.114 Use in further manufacture.**

For purposes of section 4218 and § 53.111, an article is used as material in the manufacture or production of, or as a component part of, another article, if it is incorporated in, or is a part or accessory of, the other article. In addition, an article is considered to be used as material in the manufacture of another article if it is partly or entirely consumed in testing such other article; for example, shells or cartridges used in testing new firearms. Similarly, if an article is partly or wholly consumed in quality testing a production run of like articles, such article is also considered to have been used as material in the manufacture of another article. However, if a taxable article that has been used tax free and only partly consumed in testing is later sold, or put to a taxable use by the manufacturer, tax attaches to such sale or use. An article that is consumed in the manufacturing process other than in testing, so that it is not a physical part of the manufactured article, is not used as material in the manufacture or production of or as a component part of, such other article.

**§ 53.115 Computation of tax.**

(a) *Tax based on price.* Tax liability incurred on the use of an article shall be computed on the price at which such or similar articles are sold in the ordinary course of trade by manufacturers, producers, or importers thereof and in the absence of special arrangements. For additional provisions applicable in computing the tax in the case of the use of an article by a manufacturer and producer who purchased the article free of tax under section 4221(a)(1) of the Code for use by him in further manufacture, see section 4223(b) of the Code and the regulations thereunder (§ 53.143).

(b) *Articles regularly sold by manufacturer.* If the manufacturer, producer, or importer of an article regularly sells such articles at wholesale in arm's length transactions, tax liability on his use of any such article shall be computed on his lowest established wholesale price for such articles in effect at the time of the taxable use. In establishing such price, there shall be included and excluded, as applicable, the charges and readjustments specified in sections 4216(a) and 6416(b)(1) of the Code, as in effect at the time tax liability on the use of the article is incurred, and the regulations thereunder contained in this subpart and subpart L (§§ 53.91–53.94 and 53.173–53.176). If the manufacturer, producer, or importer of an article does not regularly sell such articles at wholesale in arm's length transactions, a constructive price on which the use tax shall be computed will be determined by the appropriate ATF officer. This price will be established after considering the selling practices and price structures of manufacturers, producers, and importers of similar articles.

(c) *Articles governed by section 4218(a) used in manufacture of nontaxable combination articles.* If the manufacturer, producer, or importer of an article to which section 4218(a) of the Code applies does not regularly sell such article separately but uses it as material in the manufacture or production of, or as a component part of, a nontaxable combination article consisting of a taxable and nontaxable article, liability for tax on his use shall be computed on the constructive price of the taxable
